

## MEAD SQUARE PHARMACY

I would highly recommend Skyport IT. They have provided IT assistance and guidance to my family's companies for as long as I can remember. Being a small business owner, handling the IT side of things can be very intimidating.

With the pharmacy industry being so dynamic, I have needs that pop up and need to be solved that day. SkyPort IT is great at scheduling their team around my needs and getting all my problems solved in a timely manner.

Whether we are talking about network security, day to day operations of our computers, or adding new technology to the business, Dan and his team are there for us every step of the way.
